EDUCATION

2023-2026

KUMARAGURU COLLEGE OF
TECHNOLOGY

- Bachelors in Artificial Intelligence and Data Science
- Cumulative CG-PA : 7.875

2020-2023

SRI KRISHNA POLYTECHNIC COLLEGE

- Diploma in Mechanical Engineering
- Cumulative Percentage of 92%

2019-2020

SARASWATHI RAMACHANDRAN MTR
HR SEC SCHOOL

- SSLC
- Cumulative Percentage of 84%

SKILLS

- Python
- Machine Learning
- Data Analysis
- Data Mining
- Deep Learning
- Web Development
- MERN Stack
- 3D Modelling
- Design Thinking
- Communication
- Problem Solving
- Leadership

PROFILE

I'm an Aspiring Data Analyst with a passion for AI, deep learning, and data science, dedicated to transforming raw data into meaningful insights that drive real-world impact. My skills include machine learning, data visualization, and analytics, and I'm expanding into web development to create seamless, data-driven applications. With a strong analytical mindset, adaptability, and a commitment to continuous learning, I embrace challenges that push me to innovate and grow in the ever-evolving tech landscape.

WORK EXPERIENCE

Innovation Engineer Trainee

JAN 2025 - PRESENT

Forge Business Incubator - Onsite

- Gaining hands-on experience in AI, ML, IoT, and product development.
- Applying design thinking and rapid prototyping to solve industry challenges.
- Collaborating in multidisciplinary teams to develop prototype solutions.
- Receiving mentorship from industry experts and startup founders.
- Learning to integrate technical skills with business strategies for innovation.

AI & ML Intern

OCT 2024 - NOV 2024

Eduskills Foundation - Virtual

- Gained hands-on experience in AI, machine learning, and deep learning.
- Applied Python, TensorFlow, and scikit-learn to real-world projects
- Developed a Bone Fracture Detection AI model, achieving 96% accuracy with CNNs and image processing.
- Attended career advancement sessions led by industry mentors.
- Earned AICTE & EduSkills Internship Certificate, validating AI & ML proficiency.

Data Science Intern

JUL 2024 - AUG 2024

Codsoft - Virtual

- Gained experience in data preprocessing, EDA, and machine learning.
- Applied Python, Pandas, NumPy, Matplotlib, and scikit-learn to real-world datasets.
- Developed a Titanic Survival Prediction model, improving classification with feature engineering.
- Built an Iris Flower Classification model to classify species using ML techniques.
- Used data visualization to extract insights and enhance model interpretability.
- Applied learnings to create CropPy, a crop recommendation system for data-driven farming.
- Earned CodSoft Internship Certificate, validating expertise in data science.

LANGUAGES

- English (Intermediate)
- Tamil (Fluent)
